Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 7/13/06.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Claim Rejections - 35 USC § 102

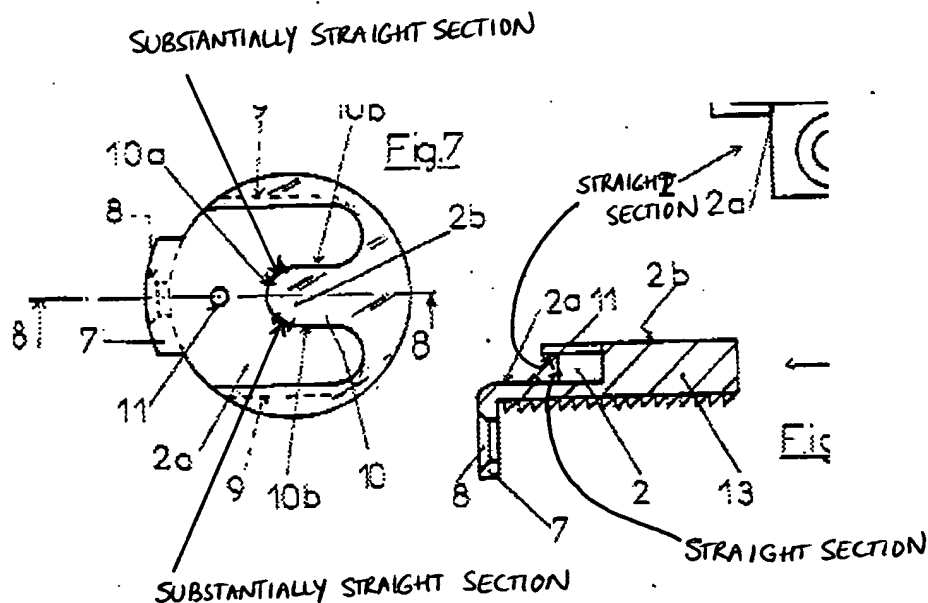

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3 and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Caenen et al. (FR 2,718,635).

Caenen et al. disclose an intervertebral disc prosthesis including: two cover plates (1, 2) and a prosthesis core 3 connected to cover plate 2 by connection profiles undercut in a complementary manner wherein the connection profiles include at least a pair of substantially straight profile sections disposed symmetrically with respect to an anterior-posterior direction of the prosthesis and are arranged to meet at an angle so that an angle included between the straight profile sections is not greater than 150 degrees (Figs. 4, 5, 7 and 8 and pages 5-9 of the attached translation). See marked up Figures 7 and 8 below.

It is noted that Applicant is only claiming that the substantially straight profile sections meet and that an angle included between the substantially straight profile sections is not greater than 150 degrees. Applicant is not claiming that straight profile sections meet at an angle not greater than 150 degrees. Applicant is only claiming that substantially straight profile sections are arranged to meet at an angle not greater than 150 degrees.

Thus, one could pick substantially straight sections, i.e., largely but not wholly straight sections, or straight sections of the connection profiles of the Caenen et al. prosthesis such that an included angle is not greater than 150 degrees.

Response to Arguments

Applicant's arguments submitted under "REMARKS" in the response filed on July 13, 2006, regarding the rejections of claims 1, 3 and 4 under 35 USC 102(b) as being anticipated by Caenen et al. (FR 2,718,635), are not persuasive for the following reasons.

As stated in the rejection above, Caenen et al. clearly disclose a connection profile on cover plate 2 having substantially straight profile sections that are arranged to meet so that an angle included between them is not greater than 150 degrees.

The Examiner has not misread Figure 8 of Caenen et al. but merely used Figure 8 to show that one could pick straight sections from the connection profiles such that the included angle is not greater than 150 degrees. Clearly, cover plate 2 is symmetrical with respect to an anterior-posterior direction of the prosthesis in an implanted position as illustrated by Figures 7 and 10.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 3733

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
